

Section 1: Who we are, and what we are all about

iApotheca Healthcare Inc. is a successful software startup in the healthcare industry specializing in streamlining pharmacy operations, increasing profits and improving the business process.

At iApotheca, we are committed to advancing pharmacy and healthcare by providing innovative applications and supporting our valued clientele.

We strongly believe in the phrase “work hard, play hard”. At iApotheca, employees enjoy many benefits, such as unlimited coffee, team lunches, incentive rewards, and team outings (camping, and Jays games just to name a few), with many new ideas being announced all the time. Also, if you have an idea that you would like to bring up to the team, don't be shy, we are always open to new ideas.

This position, is full-time, Monday-Friday working out of our Vancouver office as a permanent member of the iApotheca software development team.

Compensation for this position is \$60,000 - \$65,000 per annum plus benefits.

Section 2: Description and Responsibilities

iApotheca is looking for a talented and versatile Software Developer to join our rapidly growing team. The successful candidate will be adept at both working with the development team to develop and maintain pharmacy and healthcare software solutions as well as providing occasional support and information to clients in response to inquiries and requests in regard to iApotheca products and services.

Responsibilities are as follows:

- Contribute to the efforts of the development team by meeting deadlines and ensuring excellent results
- Participate in all phases of software development, testing and bug resolution
- Provide effective technical support to clients via phone and/or email as needed, resulting in full resolution where possible
- Direct unresolved issues to the designated resource, follow up to ensure resolution
- Ensure documentation and monitoring of customer requests, maintain up-to-date, accurate records, documenting account & software changes and revisions
- Maintain account confidence and protect operations by maintaining confidentiality and impeccable ethical standards at all times
- Maintain knowledge of and adherence to departmental, company and industry policies and procedures at all times
- Provide superior levels of customer support and training on the iApotheca pharmacy platform from time to time as needed.

Section 3: Qualifications

- Undergraduate degree in Computer Science or a related field or a minimum of five (5) years of experience in software application development
- Candidate must have knowledge of PHP, MySQL, Linux, Ubuntu, HTML/CSS/ jQuery/JavaScript, Java server, some system administration
- Familiarity with Codeignitor and bootstrap are an asset

If you like the idea of working with a young dynamic team, in a rapidly growing company, we invite you to apply by sending in a resume and cover letter, along with copies of any supporting documentation and the names of two professional references to:
